

REMARKS

Claims 1 - 15 are pending the application; Claims 1 - 15 stand rejected.

The Examiner alleges that the application contains sequence disclosures not compliant with 37 CFR 1.821 to 1.825. Applicant submits that the sequences disclosed in Table 1 on page 55 are already included in the current sequence listing and that Table 1 has been amended to refer to SEQ ID NO.

Figure 12 has been amended to insert a capital letter following the numeric identifier. Corresponding reference to the figures in the specification has been amended to agree at pages 14, 15, 20, and 21 .

The specification has been amended at pages 25 and 26 to properly cite sequence identifiers.

The specification has also been amended to correct typographical errors as follows:

1. Page 18, line 21- reference to incorrect SEQ ID NOs have been deleted,
2. Page 34, line 22-correspondence between DP15 and alternative peptide name has been corrected according to figure 12B, and
3. Page 35, line 19- same as above.

Please add new claims 16-19, then cancel claims 1 - 15 without prejudice. Support for the new claims can be found in the claims currently on file. No new matter has been added. To expedite prosecution, Applicant submits that the new claims are similar in format to claims from corresponding related and allowed applications. Applicant submits that the new claims overcome all claim objections and are in order for allowance.

Applicant believes that it has responded fully to all of the concerns expressed by the Examiner in the Office Action, and respectfully requests that new claims be entered and examined, and that early favorable action be taken in the application. If the Examiner has any further concerns,

Applicant requests a call to Patrick Dwyer at (425) 823-0400.

Respectfully submitted,

A handwritten signature in black ink that reads "Patrick M Dwyer". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
